Get the storage tank insight you need to optimize your operations – any time, any place.

Introducing TankVista™ – a Web-based tank monitoring and alerting service powered by iDigi™ Tank.
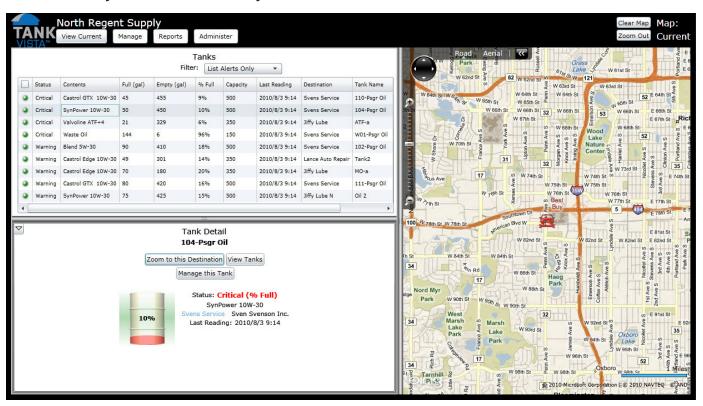

- **Around-the-Clock Monitoring** – TankVista is always on the job, continuously monitoring your tanks and delivering the information you need to manage and control your operations. Whether your tanks store solids, liquids, or gases, TankVista delivers real-time status updates on tank level, temperature, humidity, pressure, or any condition you have the sensors to measure.

- **Automatic Alerts** – TankVista automatically sends email and cell phone alerts when tank conditions meet user-defined thresholds. You'll always know when tanks need service based on any condition you choose.

- **Real-Time Visibility** – TankVista delivers the intelligent, real-time information you need to drive new efficiencies in your business – for any industry and any type of tank. For companies that operate under just-in-time inventory, having accurate, reliable information about tank levels and conditions is essential.

- **iDigi™ Tank Integration** – TankVista is powered by iDigi™ Tank, a wireless solution optimized for tank monitoring and management. iDigi Tank supports a broad range of tank sensors and Internet connection options. TankVista connects effortlessly with Digi's sensor network to provide actionable information to optimize your operations.

- **Visual Site Mapping** – TankVista's built-in mapping shows tank locations and conditions to streamline delivery and service call planning.

- **Fast Time-to-Benefit** – With TankVista, there's no software to install and maintain, and no need to develop a custom application. Simply subscribe to the TankVista service and provision it with information about your tanks. TankVista does the rest.

- **Any Time, Any Place Administration** – TankVista is a Web-based service. You can check the status of your tanks from any computer with an Internet connection – any time, from any location.

- **High Scalability** – There is no limit to the number of tanks you can monitor with TankVista. TankVista grows right along with your operations.

- **Advanced Reporting** – TankVista maintains a historical record of tank conditions. You always have the information you need to maximize efficiency, optimize operations, and ensure regulatory compliance.

- **Data Security** – TankVista uses proven, industry standard, end-to-end encryption and authentication technologies to ensure the highest level of data security. Your information is always safe, secure, and confidential.

- **Improved Efficiency** – TankVista eliminates the need for physical site visits to check tank conditions, streamlining the logistics of collecting critical information.

TANK VISTA™

Monitor your tanks on your terms.
Get TankVista.

You have too much riding on your tanks to take them for granted. The TankVista™ service continuously monitors the status of your remote tanks, bins, or silos. Automatic email and cell phone alerts notify you when a tank needs attention. No more uncertainty. No more unnecessary travel to check on your tanks.
